The Fresh Test

Your Office Now Has A Natural Option For The Glucose Load Test...

FAQs

What is The Fresh Test®?

The Fresh Test® is an organic 50-gram, 75-gram, and 100-gram diagnostic glucose beverage. The product is intended for patients who need to be screened for Diabetes Mellitus or Gestational Diabetes Mellitus (GDM). The Fresh Test®, a Class II Medical Device, is a diagnostic product registered alongside traditional glucose beverages. This product is an additive-free glucose beverage containing the same active ingredients as traditional brands.

The Fresh Test® aims to improve the patient's GDM screening experience. The Fresh Test® can help increase adherence to oral glucose tolerance tests (OGTT), especially for patients with nausea/intolerability, allergies, or for those with additive-free diet regimens. As patients become more health-conscious, The Fresh Test® fills the need for an organic and non-GMO glucose load test.

What ingredients are in The Fresh Test®? What is the shelf life?

NON GMO Project · GLUTEN FREE · DYE FREE · PRESERVATIVE FREE · SULFITE FREE · KSA KOSHER

The Fresh Test® contains three ingredients: non-GMO dextrose (tapioca or corn-based), crystallized lemon (citric acid, lemon oil, lemon juice), and organic peppermint. It has a 30-month shelf life. The Fresh Test® is certified as non-GMO, gluten-free, artificial flavoring-free, dye-free, sulfite-free, and preservative-free. It is also KSA Kosher certified. For allergen questions, please reach out to info@thefreshtest.com.

The Fresh Test® comes in a powder line (to be reconstituted with 10 oz of water) and a ready-to-drink beverage line. Our company, Fresh Test, LLC, manufactures clean and high-quality glucose beverages that provide exact equivalency to predicate 50-gram, 75-gram and 100-gram diagnostic beverages.

Improving The Patient Experience

WOMEN OWNED

Fresh Test, LLC

Fresh Test, LLC, a California-based medical device manufacturer, offers a portfolio of high-quality non-GMO and additive-free diagnostic products. As a Class II Medical Device manufacturer, Fresh Test, LLC abides by quality standards set by 21 CFR Part 820 and diagnostic requirements set by the American Diabetes Association and the American College of Obstetricians and Gynecologists. Specifications, Instructions For Use, Certificates of Analysis, and FDA information are available upon request.

Fresh Test, LLC aims to improve the patient experience with non-GMO product lines. As indicated by a manufacturer's survey and IRB clinical study, close to 100% of women prefer The Fresh Test® over traditional brands.

Instructions For Use

It is recommended that offices use their existing Oral Glucose Tolerance Test (OGTT) protocol. Please refer to the Instructions For Use (IFU) on product packaging and on our specifications page located at thefreshtest.com. Each dosage, 50-gram, 75-gram, and 100-gram, has a unique IFU. Please refer to your product packaging—Here's an example from the 50-gram glucose powder.

INSTRUCTIONS FOR USE: Consult a physician for screening protocols. Failure to follow the screening protocol can lead to inaccurate results. Mix the contents of this packet with 10 ounces of water. Mix for three minutes or until dissolved. Consume the 50-gram glucose beverage within 5 minutes. Failure to consume the entire beverage within 5 minutes can lead to inaccurate results. Per your provider and laboratory instruction, a plasma glucose measurement will be taken after 1-hour.

More information is available on the Clinical Resources tab at thefreshtest.com. You may also find test information at labcorp.com/tests/102277/gestational-diabetes-screen-acog-recommendations.

Ordering Information

Order Here

The Fresh Test® is available wholesale; to be stocked in offices and laboratories. As an over-the-counter product, patients are also welcome to order individual units at thefreshtest.com. We aim to ship product within 24 business hours. The Fresh Test® is commonly an out-of-pocket expense. However, reimbursement can be obtained via HSAs, FSAs, and the global CPT® Codes 82950, 82951, 82952, and 99401.

Diagnostic glucose beverages are classified as over-the-counter medical devices. No prescription is needed. If your laboratory does not stock The Fresh Test® or is new to the brand, it can be helpful to bring the product in with a physician's note or prescription. Here is an example:

℞ PRESCRIPTION

The Fresh Test® is validated diagnostic glucose beverage. My patient requests to to use this brand due to the ingredients. It is organic, additive-free and better tolerated. This brand is necessary due to the patient's

◯ *Allergies* ◯ *Diet regimen* ◯ *Nausea/tolerability*
